RE: 2022 Business Personal Property Rendition

Dear Business Owner:

Texas law requires that all owners of business personal property file an annual rendition with the appraisal district. Enclosed is a rendition form for your use.

Business personal property includes inventories, furniture and fixtures, machinery and equipment, computers, vehicles, vessels, aircraft or any other properties held or used for the production of income.

Renditions must be received no later than April 15th. Should you need additional time to submit the rendition, you may, by a written request, receive an extension to May 15th; the written request must be received by the appraisal district no later than April 15th. For failure to file a timely rendition the law requires that a penalty in the amount of 10% of the total taxes due for the tax year be applied.

If you did not own this property or if you went out of business prior to January 1, then please return the rendition form stating who does own the business effective January 1 or list the date you went out of business.

If you need additional information or assistance completing your rendition, please call Kelly Kesinger, Ext 104, or Weldon Cook, Ext 110 at (903) 657-3578 or visit our office at 107 North Van Buren, Henderson, Texas.

Respectfully,
Rusk County Appraisal District

Weldon Cook, RPA
Chief Appraiser
